**BRIGHT  
CORNER**

Bright Corner is determined to be a part in improving the society. We believe that the business and society must go hand in hand. Bright Corner, therefore is devoted to contribute and engage in activities for the better Myanmar society.

## About us

Bright Corner Co., Ltd was established in 1996 and a market leader in advertising culture.  
A few years later, it was upgraded as an authorized distributor of Japanese Brand Roland Large Format Printers for Myanmar Market.

Over the years, 200 units Roland Printers have been sold throughout Myanmar and we have demonstrated consistently strong growth to become a reliable sales distributor.  
We supplied over 13 Millions of Usim Cards and Packaging to MPT from 2016 to 2018

Then we introduced GCC Laser cutting machines by supplying engraving of acrylic and wood curving products.  
After that, we brought in STAHL high quality PVC and PU stickers, and Hotronix Heat Press Machines to upgrade the T-shirt printing industry.

We officially introduced 3M Road Improvement Products with the respected Government Departments, all prominent road construction companies,  
Yangon City Development Committee, and JICA in 2018.

Bright Corner is determined to be a part in improving the society. We believe that the business and society must go hand in hand.  
Bright Corner, therefore is devoted to contribute and engage in activities for the better Myanmar society.

## our commitments

## 3M™ Automotive Window Film Obsidian Series

### Stay true

The 3M™ Obsidian Series incorporates patented Infuse technology for better durability, color retention and fade resistance than many dyed films.

### Stay cool

The Obsidian Series provides better durability, strong heat rejection, low reflectivity and protection from ultraviolet (UV) rays, thereby enabling you to stay cool. Obsidian Series rejects up to 60% of the total solar energy coming through your windows.

### Protect your privacy

Available in multiple tint levels that can block up to 95% of visible light, protecting privacy for you, your family and your valuables.

### Reduce glare

The Obsidian Series reduces up to 93% of the glare from blinding sunlight, allowing you to see better and concentrate more on driving.

### Guard against UV

The Obsidian Series rejects up to 99% of UV light. This provides vehicle occupants with significant protection from harmful UV rays.

### Terms to Know

- **TSER – Total Solar Energy Rejection**  
The percentage of total solar energy rejected by filmed glass. The higher this value, the less solar heat is transmitted.
- **VLT – Visible Light Transmitted**  
The percentage of visible light that passes directly through filmed glass: the higher the number, the lighter the film.
- **Ultraviolet Rejection**  
The percentage of ultraviolet (UV) light that is rejected by the filmed glass. UV light contributes to the fading and deterioration of fabrics and leather.
- **IRR – Infrared Rejection**  
The percentage of solar infrared energy rejection over the wavelength range from 900-1,000 nm. Infrared rays are primarily responsible for the heat you feel when driving.
- **IRER – Infrared Energy Rejection**  
The percent of solar infrared energy rejection over the wavelength range from 780-2,500 nm. IRER takes into account the transmitted and absorbed IR energy that will be re-radiated into a car.
- **Glare Reduction**  
The percentage by which visible light is reduced by the addition of film.

Limited lifetime warranty. Backed by one of the most comprehensive warranties you can get. Sold and installed by professional 3M Authorized Dealers/Installers, our films are durable, long-lasting and virtually maintenance free.

Authorized Reseller of Myanmar
